

# Daylight Saving Time – JTA150

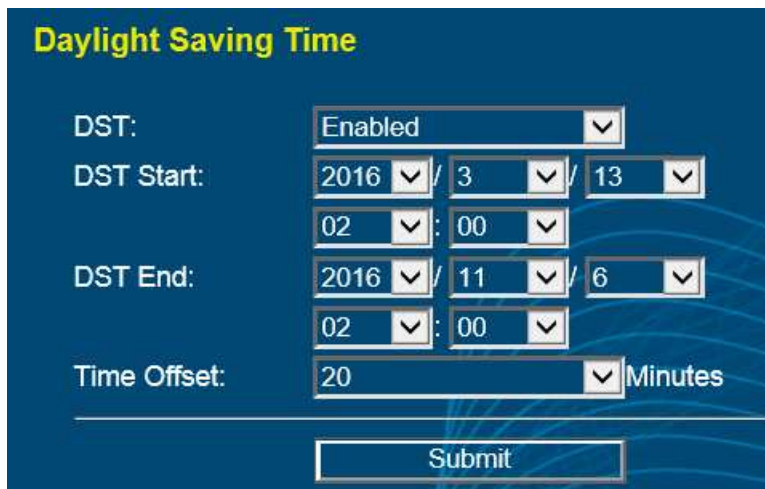

Log into the FaceScan Web Interface. (Username: [admin](#), Password: [jantek](#))

The screenshot shows a web browser window with the address bar displaying "http://201.12.20.97/index.psp". The main content area has a dark blue background with the word "Authentication" in white. Below the title, there are three input fields: "Username:" with the text "admin", "Password:" with six blue dots, and a "Login" button.

Click **ADVANCED** -> **Time**. Make sure Daylight Saving Time (DST) is enabled. Enter the correct DST start date and end date. The Time Offset should be set to 60 minutes. Click the Submit button.

Note: Daylight Saving Time begins on the second Sunday in March and ends on the first Sunday in November.

The screenshot shows a configuration page titled "Daylight Saving Time" in yellow. It contains several settings:

- DST: Enabled (dropdown menu)
- DST Start: 2016 / 3 / 13 02:00 (date and time dropdowns)
- DST End: 2016 / 11 / 6 02:00 (date and time dropdowns)
- Time Offset: 20 Minutes (dropdown menu)

A "Submit" button is located at the bottom of the form.
